

## VARDAFLEX Plus Profi

The VARDAFLEX LED strip is only suitable for installation in dry indoor rooms.

### Risk of electric shock!

Be sure to have a professional electrician complete installation. There is no warranty coverage for any lights installed without observing european safety directives.

### Caution!

Only connect the VARDAFLEX LED strip to a suitable power supply (24 V DC).  
Only operate when completely unrolled.  
Connect VARDAFLEX LED strips in parallel.

## Delivery includes

1 x 5 metre VARDAFLEX LED strip

## Technical data

Power supply	24 V power supply with constant output voltage
Power	72 W
Current strength	3,0 A
Radiation angle	120°
Quantity LED	300
Length	maximum 5 metres per connection
Dimensions	5000 x 10 x 2 mm
Bending diameter	30 mm

Compliant with the applicable european CE directives

Safety class 3 - low voltage protection

Suitable for indoor use only

## Installation

### Risk of electric shock!

Switch off voltage prior to installation. Ensure that voltage cannot be accidentally switched on again.

### Caution!

On conducting surfaces, place an insulation layer between the VARDAFLEX LED strip and surface. Surfaces must be flat, free of dust, grease and dry.

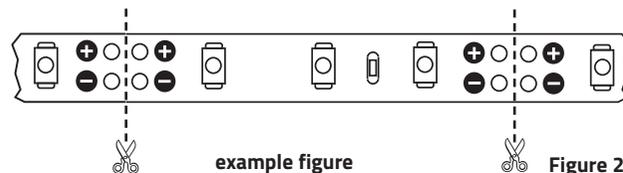

1. Prepare surface.
2. Shorten VARDAFLEX LED strip if necessary (Fig. 1).
3. Peel off adhesive film and gently press on VARDAFLEX LED strip, do not press directly on the LEDs.
4. Connect VARDAFLEX LED strip to power supply.

## Shortening the LED strip

### Risk of electric shock!

Always disconnect the mains plug before shortening.

VARDAFLEX LED strip can be separated in each case after **six LEDs (100 mm)** (Fig. 1).

Separate the VARDAFLEX LED strip at the marked position. For a tightly assembled LED strip is a micro side cutter or an optional cutter required.

### Caution!

With soldered connections note that the soldering temperature is 260° C and the soldering duration a maximum of 10 seconds per soldering point.

Only use neutral cross-linked silicon (never use silicon which includes vinegar!).

## Disposal

Dispose of electrical and electronic equipment in an environmentally friendly manner. Please contact your local council for further information.
